THE WANTOK SYSTEM

Rooted within the Melanesian culture is the idea of Wantoks (meaning “one talk” in Tok Pisin). Every Melanesian is born with duties to their Wantoks - within the clan and village, each person can expect to be housed and fed and to share in the community’s assets, no matter where they are located in effect a social security system. Your Wantoks are those people who speak your language.

Our Australian Wantoks - are either wholesalers, operators or retailers who have extensive experience of packaging and selling Papua New Guinea. They speak your language and understand your needs and can open a world of adventure, beauty and opportunity to you as a traveller or agent looking for something new, special and different in a PNG experience.

www.png-tourism.com

Our website should be a prime resource to the Australian travel agent selling Papua New Guinea. The information provided on this site hopefully will address all research information you and your client needs before travelling to PNG.

For your convenience we have catalogued various locally produced special interest product specifically designed for the Australian traveller and only a local call away. You will find our Billum Travel Planner invaluable in putting together the various product you seek - then leave it to us to put you in contact with the most applicable local wholesaler or operator.

A full list of the key wholesalers selling product to Papua New Guinea from Australia denoting their areas of expertise should assist you in making the best selection for your client. It should be stressed that these wholesalers or Wantoks, often represent the best value for money for your client as they often have access to attractive airfares and rates not normally achievable through direct bookings. There are also a select group of Papua New Guinean operators who have Australian booking offices. These operators offer fully commissionable products but are not Australian licensed operators and therefore can only book their own products on your behalf.

Apart from the website, information we have a very limited stock of brochures, poster and general information held with T.I.F.S. - Tourism Industry Fulfilment so for enquiries please email: png@png-tourism.com.

PEREGRINE

The Spirit of Adventure

Wholesaler

Peregrine has been operating adventure holidays since 1977. Today we can help you discover all four corners of the globe. For Papua New Guinea we offer a 15 day Kokoda Trail tour

Papua New Guinea is a young nation, but has endured a colourful and, at times, bloody history. The Kokoda Track is one of many walking tracks that existed long before Europeans came into this part of the world. During the course of World War II, the Japanese decided to use this trail as a means of launching a ground attack against the Australians in Port Moresby. On this trek, we set out to explore the complete route of the campaign starting from Owers' Corner (not far from the point where Australian troops first turned the Japanese advance) perched high on the Sogeri Plateau, and eventually working our way east to the little village of Buna on the north coast (where the Japanese landed). By the time we arrive at Buna, we have completed a crossing of the central spine of Papua, having seen all the main battle sites and also gained an appreciation of the rugged beauty of the region, as exemplified by the Owen Stanley Ranges. Five departures scheduled for 2006.

SURF TRAVEL COMPANY

Surf the World..

Are a licensed specialist surf travel company. One of their key destinations is Papua New Guinea- located in the tropics, with the obvious accompaniments of rainforests, mountains and wild rivers and a year-round warm and humid climate.

Not as well known is what it has to offer in the crystal clear waters surrounding it - an amazing variety of unspoiled dive sites with coral reefs, WWII ship and aircraft wrecks, sunken live volcanoes and marine life is there to be explored.

New Ireland is just two degrees south of the equator and is a most beautiful and tranquil island. Kavieng is on its tip and the area offers great surfing, plus reef and wreck diving, with hundreds of coral atolls, reefs and quays.

Kavieng has nine reef breaks which means consistently good surfing conditions in the season from November to April. You have access to 5 rights and 4 lefts, and with limited numbers of surfers permitted at the resort you are guaranteed uncrowded waves. The safe conditions also attract families.

WORLD EXPEDITIONS

A path less travelled...

World Expeditions is a leading adventure travel company, specializing in small group treks & tours to the most fascinating wilderness and cultural regions of the world. The company has been in operation since 1975 and offers quality, all inclusive programs all escorted by expert bilingual guides with wilderness first aid qualifications. World Expeditions adventures focus on experiential travel and off the beaten track destinations and immerse travellers in the destination through trekking, cycling, kayaking or mountaineering opportunities. Minimal impact travel and a philosophy of giving something back to the communities visited are also core principles of the operations. The company has a network of operations on all seven continents and administrative offices in Australia, NZ, USA, UK and Canada. The company is Australian owned and operated.

Kokoda Trail:

World Expeditions offer a 14 day classic traverse of PNG's Kokoda Trail. For most the Kokoda Trail is a fitting reminder of the Australian army's heroic battles, fought in 1942, to defend Port Moresby at extraordinary odds from the advancing forces of the Japanese. These historic encounters on the Owen Stanley Ranges ensure that the Kokoda Trail remains a classic. The trek crosses the geographical heart of PNG, following trails from the tropical rainforests to the rarified climes of the ranges. At night we stay in secluded jungle camps and share experiences with the traditional villagers in some of the remotest regions of PNG. It takes ten days to cover the 96km trail - offering tremendous rewards and a feeling of accomplishment as we complete the final stages from the highlands to the township of Kokoda.

DIVERSION DIVE TRAVEL

Diversion Marine Conservation Fund

Established in 1994, Diversion Dive Travel is the leading online travel specialists for diving vacations in the Western Pacific region including Australia, Micronesia, Papua New Guinea, South East Asia and the Solomon Islands - some of the most pristine marine environments on the planet.

As a fully licensed international travel agency, Diversion Dive Travel can help you discover these wonders with daytrips, live aboards, dive training courses and all aspects of your dive travel planning.

The company was founded in 1994 by its current owners, Claudia Lutrop and Dirk Werner-Lutrop. Their passion for diving in this region saw them change their careers as social scientist and economist to providing specialist travel services to scuba divers wanting to visit Australia, Papua New Guinea, Micronesia, South East Asia or the Solomons.

Based in Cairns, Queensland, Diversion Dive Travel is located at the centre of the Western Pacific's and South East Asia's tourism activities. Being located so close to these diving destinations means that we are able to provide first hand information, and to create highly specialised travel arrangements for our clients.

Constant contact with local operators and agents allows us to maintain a tight quality control on each of the individual services that form part of the Diversion travel product.

Mission Statement

"Amidst a daily growing number of online travel providers it becomes ever more difficult to find good sources of information. Many providers offer entertainment and hollow slogans as known from TV and other traditional media.

We strive to provide up to date information in a comprehensive manner, that can be easily accessed, and to show competence in our field. That's the only way to build your trust in an otherwise anonymous relationship."

NO ROADS

No borders, no limits

No Roads is an adventure expedition operator. We have been operating since 2003 and have expanded our operations from our first expedition on Lombok, Indonesia, to over 10 other countries, including Fiji, Papua New Guinea, Nepal, Bhutan, China (Tibet), Myanmar, Tanzania, Kenya, Ethiopia, Libya, Russia, Argentina.

No Roads was borne out of a sense for change. For too long we had seen adventure travel turned into a glossy brochure, where every eventuation was controlled by the operator and thus the experience became processed and artificial. Porters and locals were kept at a distance, large hotels were preferred over family run businesses and trips that attracted the most people (and thus more profits) pushed lesser known more remote destinations aside. All of a sudden every large operator that had glossy

brochures and huge global distribution were doing exactly the same thing in the same way. We said enough is enough.

No Roads is dedicated to providing you with an up close and personal experience with your destination. We encourage interaction with our crews, we stay in family run hotels or guest houses, and we go to places others don't dare.

OUR SPIRIT

Creating Adventures for Life

Our Spirit creates life changing adventures that give you the best opportunity to "experience what's out there". Our Spirit adventures are unique, raw, challenging and personally rewarding. Our point of difference is that we are dedicated to promoting culture and heritage. Our adventures are synonymous with key events that shaped Australia's evolution, such as the 1942 battle on the Kokoda Track that saved Australia from foreign invasion. Our Spirit adventures are as much about celebrating and commemorating what historical legends achieved in their time, as what we are capable of achieving in our lives today. It's about "having a go" and gaining an appreciation of what war heroes, pioneers, and modern sports people endure and how that can be translated to you personally.

Many people have the training, skills and knowledge to achieve great things in life; but it is your passion, instinct and spirit that gives you an edge. Our Spirit creates the environment for you to experience something real and out of the ordinary - experiences that remove any perceived limitations you may have.

SOUTH SEAS HORIZONS

PNG really is a holiday frontier for the 21st century. Rarely can the traveller find a getaway tropical sanctuary that still has the Indiana Jones touch. But South Sea Horizons know exactly where to find it, how to get you there and what to do during your stay. In a little over a week we trekked the Owen Stanley ranges, absorbed one of history's most remarkable battlefields, laughed our way through an impromptu soccer match with Kokoda locals, bathed next to an active volcano and caught enough

fish to feed a small village. If you want a holiday that matches relaxation with action and culture with challenge - SSH will take care of it.”
